

Department of Physical Education
Faculty of Social Sciences
Aligarh Muslim University, Aligarh

Syllabus for Ph.D. (Physical Education) Admission Test, 2018-2019
(Paper-II)

Physical Education	40 Marks	20 Multiple choice questions of 01 mark each. 08 Descriptive questions out of which candidate will be required to answer 05 questions of 04 marks each.
--------------------	----------	---

Research in Physical Education:

Its need and importance. Scientific principles of research inquiry. Steps in research process. Relevance of literature review. Hypothesis Testing (Directional Non-directional). Rationality of Experimental and Non-experimental research designs, Mixed designs, Factorial design, Co relational research design. Steps in writing of research reports, Types of research – Descriptive vs. Analytical, Applied vs. Fundamental, Quantitative vs. Qualitative, Conceptual vs. Empirical and Stages in Research Process, Concept of theory, empiricism, deductive and inductive theory. Characteristics of Scientific Methods. Ethical and Moral Issues in Research, Plagiarism, tools to avoid plagiarism – Intellectual Property Rights – Copy right laws – Patent rights, Reproducibility and accountability.

Test, Measurement and Evaluation in Research:

Data and its types, Methods of data collection (quantitative and qualitative). Population and sampling techniques. Classification of test (Standardized and teacher made tests). Construction of test and its Standardization. Criteria of test Selection. Tests for general motor ability and Sports Skills.

Statistical Application:

Significance and application of parametric and nonparametric tests in research. Measures of central tendency and Variability and their uses. Normal probability curve. Reliability of statistics and test of significance. Correlational and regression techniques. Scaling techniques and criteria for selecting appropriate statistical test of analysis. Issues related to interpretation of quantitative and qualitative research findings.

Exercise Physiology:

Physiology and physical training, Exercise Physiology, Physiological changes, De-training, retraining and maintenance, Types and structure of muscle fibres and theory, Body size and Body composition, Physiology and altitude training, Physiology of female in sports, Physiological changes in aging, Ergogenic aids, Energy sources and cost of exercises, Training and Recovery, Acclimatization.

Sports Psychology:

Psychological Principles and Sports, Methods in Sports Psychology, Cognitive Processes, Motor learning, Motivation, Personality traits of elite athletes, Emotions and Sports performance, Prestart states, Anxiety, Fear, Frustration, Aggression, Conflict and Sports Performance, Psycho-regulatory techniques, Audience and Sports.

Sports Biomechanics:

Sports Biomechanics: Kinesiology/ Biomechanics/ Mechanics/ Sports Principles, Newton's Law, Levers, Force, Friction, Air and water Resistance, Biomechanical Analysis, Sports Performance Analysis, Analysis of Motion, Kinematics Analysis, Projectile- same and different surfaces.

Sports Management:

Sports Management, Functions and Philosophy, Administration and Principle of Management, Management and Leadership, Organization, Type of Organization, Planning in Sports and Physical Education based Programme, Personal Management, Construction and management of play fields, Purchase procedure, Public relations, Budget Making and Finance.

Sports Training:

Sports Training, Coaching and Conditioning, Training load, Motor components, Technique and Tactics training, Periodisation, Planning.

Kinanthropometry:

Kinanthropometry, Anthropometric Instruments, Kinanthropometric techniques, Assessment of body composition, Age, Prediction of Adult-height and Physique in sports, Application of Growth and Development in the field of sports, Body composition and determination method, Growth pattern, variables and body types.
